

YOUR ULTIMATE CLEANING SOLUTION

Don't Scrub it... Soak it.

Oz-Tank

Oz-Tank is a specifically designed stainless steel, double skinned soak tank with a thermostatically controlled heating element.

Carbsolve is a non-toxic, non-corrosive, environmentally friendly, user friendly and biodegradable cleaning powder, specially formulated for use in an Oz-Tank System. Together, Oz-Tank and Carbsolve will remove fat, grease, carbon and oil without causing any damage to the parent material.
